

20 Years Since USS Stark Attack

By Pete Wyncoop

Mayport Council Navy League

The 20th annual memorial service for USS Stark (FFG 31) will be held at Naval Station Mayport's Memorial Park at 10:30 a.m. on May 17.

On May 17, 1987, 37 USS Stark Sailors were killed when two missiles struck the ship without warning after 9 p.m., while the ship was on patrol in the southern Persian Gulf. One

missile exploded, causing tremendous damage and immediate fires in the forward part of the ship. Fuel from the second missile intensified the fires, and the crew fought the inferno through the night and the next day. Aided by equipment and fire fighting teams from other Navy ships, the crew succeeded in saving the ship, but the cost was heavy.

Restored and returned to

service in 1988, Stark won two Battle 'E' awards as best ship in the squadron. After the ship was decommissioned in 1999, the Naval Order of the United States and Naval Station Mayport partnered to preserve the observance of this tragic incident that wrought so much misery for the crew members and their families.

The service will feature accounts of some of the events

that occurred following the attack, both aboard the ship and here in Mayport, from crew and volunteers and staff who worked to provide information and support services to the families of crew members.

Following the service, there will be a reception hosted by the Naval Order of the United States and the Mayport Council Navy League at the CPO Club.

Several members of the 1987

crew of Stark will attend the service and are planning to hold a reunion in Mayport during the weekend. For more information go to http://groups.msn.com/ussstark/_homepage.msnw?pgmarket=en-us.

Former crew and family members seeking information about the service are encouraged to contact starkmemorial@earthlink.net for further information.
